DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group II, claims 11-14 in the reply filed on October 17, 2007 is acknowledged.

Claims 1-10 have been canceled.

Claims 11-14 are under examination.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 11-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Morgan et al. (Tetrahedron, 1975, vol. 31. pp2598).

Applicant claims the compound of general formula (I), and the pharmaceutically acceptable salts or prodrugs thereof.

Morgan et al, discloses the preparation of N-(1-methyl-2-(3,4-dimethoxy-phenyl)-ethyl)-hydroxylamine, which is embraced by the claimed invention. (see compound 6: page 2598, column 2, paragraphs 3-4, and page 2599, column 1). The compound anticipates the claim when R1 and R2 are both methoxy, R3 is H, R4 is methyl, R5 is H and R6 is H.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

7. Claims 11, 13 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morgan et al. (Tetrahedron, 1975, vol. 31, pp2598) in view of Levy (U.S. 3,184,510).

Morgan discloses the claimed invention. See 102(b) rejection above. Morgan does not explicitly disclose that the compound has pharmaceutical uses. Levy substantially discloses the claimed invention of formula (I), which are used as pharmaceutical compositions. (see column 1, lines 50 – column 2, line 2, examples and claims).

Therefore, the rejected claims are prima facie obvious in view of Morgan and Levy, since the references teach or suggest the elements of the rejected claims with a reasonable expectation of success.
